

Public Health Recommendation

It is of great importance that you have technology knowhow so as to get considered for positions in public health. With that, we have put together some info that will help you learn at least one software that is used by public health professionals like you. Find the guideline below;

1. Epi Info

Video: <https://www.youtube.com/watch?v=dKPFmaC8-8I>

Download: <https://www.cdc.gov/epiinfo/index.html>

2. MassChip

This is in MA, go through the website and feel free to inquire how they do the work.

Consider dedicating time and effort to learn about Epi Info from various sources including Lynda.com (You can create a free account for 30 days) YouTube, Google, among other sources.

Adding this skill set to your resume will be of great impact to your career, so please take it with all the seriousness it deserves.

If you would ever consider getting a certification in future, feel free to consider the following;

Certifications: National Incident Management System (NIMS)/Incident Command System (ICS) 100, 200, 700, and 800
